Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilbourn et al U.S. Patent 5,226,261.

Wilbourn et al disclosed an apparatus comprising an inflatable bouncer (10) having an uninflated roof (13) with an inner portion and a periphery, the roof is supported at the inner portion by an inflated column (13), the inflated column extends vertically upwards; an inflatable bottom section (11) having a periphery and a central area., wherein the inflated column (middle column) is coupled to the section (11) proximate the central area; a plurality of inflatable outer columns coupled proximate the periphery of the bottom section; the roof (13) extends between the inflated column and the outer columns.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilbourn et al.

Art Unit: 3711

The above explanation would constitute the method steps as set forth in claims 13-16. Fig. 8 shows a support section (22) which is attached to an upper portion of the outer columns.

Allowable Subject Matter

Claims 5-10, and 12 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
